Excise duty imposed on Small Scale Industries

*512. SHRI V. NARAYANASAMY : Will the Minister of FINANCE be pleased to state :

(a) whether it is a fact that some of the growing small scale industries in the country are suffering because of the excise duty imposed on them if they use a different brand name;

(b) whether such small scale industries submitted representation to the Ministry of Finance for giving concessions to them; and

(c) whether Government conducted any survey of the small scale industries that have closed down their units in large numbers because of the concessions withdrawn by Government?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M. V. CHANDRASHEKHAR MURTHY) : (a) Small scale industries are not likely to be affected adversely due to changes made in the budget 1994-95 in the brand name provision under small scale excise duty exemption schemes. The changes have been made with a view to prevent the misuse by bigger units and to allow a small unit to promote his own brand.

(b) Representations have been received for withdrawal of changes made, in the budget 1994-95 in the brand name provision in the small scale excise duty exemption schemes. Government have examined the representation received and have made following two changes in the brand name provision in the SSI schemes :—

(i) use of code number, drawing number and design number have been excluded from the definition of brand name; and

(ii) a small scale unit manufacturing component parts of a machinery, which are

to be used as original equipment in the manufacture of machinery, etc can clear branded component parts upto a value of first clearances of Rs. 30 lakhs in a year without having to follow any rigorous procedure. Small scale units producing such branded goods upto a turnover less than Rs. 30 lakhs in a year are only to declare that the branded goods would be used as orginal equipment.

(c) No, Sir.

The Special Tripartite Committee has given the following unanimous recommenda-tions :—

(i) The reports given by the Textile Research Associations show that the NTC mills as well as Taken Over Mills can be made viable by modernisation.

(ii) Modernisation/rationalisation therefore should be carried out in consultation with the unions.

(iii) There should be no retrenchment.

(iv) There should be no privatisation.

(v) Taken over mills would be nationalised.

(vi) Surplus land may be disposed off and the proceeds should be utilised by the Management for modernisation, working capital, etc.

(vii) Professional management should be strengthened both in the Holding Company and at the Subsidiary levels and representation of trade unions should be ensured upto Board level for effective participaton of workers in the management at all levels from unit to Holding Company level.

(viii) Steps shall be taken to move the BIFR to accept the above proposals and close the cases.

The revival plan will require approval of the BIFR under the provisions of the Sick Industrial Companies (Special provisions) Act, 1985 after it is approved by the Government before it can be implemented.

In terms of the modernisation/rationalisation plans prepared by the Textile Research Associations, the National Textile Corporation is expected to attain viability within two years of their implementation. This will be beneficial to its workers and consumers.
